**SURFACTANTS TASK FORCE - EPA Company No. 82233** SUBJECT:

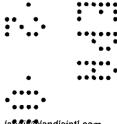

> **Science Assessment Document for Tolerance Reassessment:** Alkyl Ammonium Chloride Salts

Dear Ms. Wagner:

Please find the following submitted on behalf of the Surfactants Task Force:

- EPA Application for Registration (EPA Form 8570-1).
- Three copies each of the following documents:

VOLUME NO.	DESCRIPTION	MRID NO.
1	Administrative Materials	
2	Science Assessment Document for Tolerance Reassessment: Alkyl Ammonium Chloride Salts	46771901
3	Cosmetic Ingredient Review, Final report on the safety assessment of cetrimonium chloride, cetrimonium bromide, and steartrimonium chloride. <i>International Journal of Toxicology</i> , 16 (1997) 195-220.	46771902

Ms. Pauline Wagner, OPP Inert Ingredient Assessment Branch February 27, 2006

## SUBJECT: Science Assessment Document for Tolerance Reassessment for Alkyl Ammonium Chloride Salts

The Surfactants Task Force has sponsored the development of a review of public domain data concerning the physical, chemical, and toxicological properties of alkyl ammonium chloride salts and related compounds. The Science Assessment Document that resulted from that review is being submitted to aid the Agency in its reassessment of tolerances and exemptions from the requirement of a tolerance for this class of surfactants (inert ingredients) required by the Food Quality Protection Act.

In addition to the Science Assessment, copies of the public domain studies referenced in the assessment that are have not previously been submitted and are not readily available on the Internet are included in this submission.

If you have any questions or need additional information, please do not hesitate to contact me at any time at 229-247-6472.

Sincerely,

Richard H. Collier, Ph.D.

Vice President, Regulatory Affairs
